TESTIMONIES

"Sisterhood has been one of the best things for me in YFC. It has given me more confidence, more friends within the organization, and clearer vision for ministry. I am grateful for the experience."

"There's something beautiful that happens when a group of women get together...the sweet bonds I made with those close to me in age, but really those older than me. I now have a list of 15 women that I could call ANYTIME, and I know they'd pick up."

"Sisterhood has given me more passion for ministry. The retreats were life giving to me and refreshed me to continue to be the best leader I can be. The biggest change is that I have really pondered what my calling is and have spent a lot of time thinking/praying about this. I truly believe God has given me the innate gift of leadership and I have been exploring what that means for my life and my ministry within YFC."

"The single biggest change in me due to Sisterhood is discipline...more silence and solitude...more compassion for others."
